REPORT

Name of the course: different types of cancers	Academic Year: 2020 - 21
Duration of Course: 4 th to 6 th February 2021	Duration in Hrs: 30 hrs

Resource person details:

Dr Vasundara Cheepurupalli
Obstetrician and Gynaecologist
KIMS Hospital Secunderabad.

Number of faculty attended: 22 St. Pauls College of pharmacy organized a certificate programme on “**Workshop on I am and I will -Together all of our actions matter**” for faculty members by Dr.C.Vasundara Obstetrician and Gynaecologist on date.....

This program covered the following objectives and learning outcomes.

Objectives:The objective of the present workshop is to provide knowledge for faculty members on various Cancer related current advancements.

Learning Outcomes:

- 1) The aetiology of cancer
- 2) The various types of Cancer
- 3) The current employed techniques to diagnose the disease
- 4) The advanced dosage regimen and novel procedures to get rid of the lethal disease.

Overall, 22 faculty members participated enthusiastically in the workshop. The program was very much valuable to them and their feedback was encouraging about the program. The management and Principal of St. Pauls College of Pharmacy thanked the resource person Dr. C.Vasundara for making the program successful.

REPORT

Name of the Topic: Travelling with Covid 19 Pandemic and Impact on Pharmacy Profession and Current Trends and Future prospective of Pharmacy Profession

Duration: Three Days

Academic Year: 2020 - 21

SUMMARY

We discussed about the travelling measures to avoid the infection.

Efforts should be made to help pharmacists and practitioners prepare for the upcoming year and how they can best position themselves for success. Pharmacists will continue to become more involved in in-patient care, technology, and emergency preparedness.

We report that the experiences of the COVID-19 pandemic may still impact the health care landscape, medication use, Travelling, and the pharmacy profession over the next 5 years.

“This year’s reflects the ongoing challenges associated with COVID-19, and the related opportunities for pharmacy professionals to continue to enhance their leadership and advance their practices in service to their patients and communities from the bedside to the home and all points throughout the continuum of care.”.

Pharmacists’ roles in emergency preparedness will continue to grow, including in the development of plans for future disasters or emergencies such as pandemic outbreaks. Within health systems, pharmacists will also need to create contingency staffing plans in response to significant health-system patient volume shifts.

Pharmacists must be allowed to take on greater roles in providing vaccinations, administering COVID-19 tests, and organizing and overseeing mass vaccination programs. Pharmacy leaders and organizations should continue to advocate for the expansion of these responsibilities, according to the report.

The expansion and development of technology were accelerated by the pandemic, increasing the ability of health systems to use digital health solutions and artificial intelligence to optimize medication management. Pharmacists will likely be key leaders in the effort to streamline digital health solutions and integrate them with current workflows. Pharmacists will also manage chronic conditions from remotely generated health data, according to the report.

Despite this accelerated technological development, a lack of technological access and literacy also negatively impacted underserved populations during the pandemic. Some technologies, such as voice-assisted technology, are being used in health care to improve information accessibility, and pharmacy leaders can advocate for equitable access to digital tools to ensure that underserved populations benefit from technological advances, according to the report.

Health systems will increasingly be required to offer advanced care at home, the report predicts. Additionally, pharmacy leaders will be expected to participate in the design and implementation of remote patient care.

REPORT

Name of the Topic: Student Faculty Relationship: Impact on Professional and Personal Development

Duration: One Day

Academic Year: 2020 - 2021

Resource Person: Dr Rao V S V Vadlamudi

SUMMARY

Student-faculty relationships are the most crucial connection within a collegiate community. Like any relationship, those between faculty members and students require nurturing.

Advisors who know their students' talents and understand their faculty colleagues' gifts for helping the student grow to occupy a unique position where they can facilitate strong relationships between advisees and their professors.

When advisors help facilitate conversations between students and faculty members, they help the institution as a whole. When students feel connected to the campus community, they are more often retained and excel academically, creating a winning situation for everyone.

A sense of connection with teachers helps students feel like they belong at the institution. Advisors can aid in building this connection by helping students understand that they should get to know their professors, if only so that faculty can teach them better.

Faculty members who understand the learning needs and interests of their students can appropriately tailor assignments, expectations, and conversations.

Faculty also can suggest a host of effective study strategies ranging from note-taking skills to the best ways to critically read a particular text. Often students do not take advantage of faculty knowledge of study skills, even though faculty have studied long hours in their fields in order to get the positions they currently hold.

These conversations can also be helpful to students who believe they have solidified their academic interests, as role modeling, references, and research opportunities can arise from these relationships. Through these educational conversations, faculty can challenge students to excel academically and help students reach their potentials.

We can help these conversations occur not only by pointing out their tangible benefits, but also by explaining that most faculty members enjoy working one-on-one with students. Advisors can remind students who feel negatively towards interacting with a particular teacher that people behave differently in groups than in one-on-one situations. A clear explanation that relationships start as one-on-one efforts can help students see that faculty are approachable and often are willing mentors in the learning process.

Advisors should tell students that the most fruitful conversations with faculty center on learning, rather than grades. To build a good relationship with a faculty member, a student should demonstrate that learning, rather than arguing for a better grade, is central to the discussion. In addition, students who have educational conversations with faculty tend to reap the most benefit from the interaction. When they help their students ask faculty well-crafted questions, advisors can help faculty and students connect.

Good faculty-student relationships begin with conversations. There are several conversation starters that advisors can use in order to ease the student into making a connection with faculty members. It is noted that students who receive faculty mentoring have higher grades.

Advisors better prepare students for the workforce when they encourage their advisees to see their professors as supervisors who evaluate their work rather than someone responsible for student performance on assignments.

Advisors can help students and faculty invest in each other for both student and institutional success. Academic advisors can help students learn strategies to better access faculty knowledge.

CIRCULAR

It is to inform to all the faculty members that a 6 day Faculty Development Program “**ESOTERIC ESSENCE**” is scheduled from **23/11/2020 to 28/11/2020** .In this regard all the faculty members are informed to attend the sessions and a certificate will be given to all the members who fulfills the criteria.

Principal
St. Pauls College of Pharmacy
Turkayamajal, R.R. Dist-501 510.

REPORT

Date: 30-11-2020

Name of the program: ESOTERIC ESSENCE a six day FDP	Academic Year: 2020-2021
Duration of Course: From 23/11/2020 to 28/11/2020	Duration : 6 days

Number of delegates attended: 194

This program covered the following objectives and learning outcomes.

Objectives:

This FDP is intended to educate the faculty about novel concepts in various branches of pharmacy. The program encompasses the topics related to Pharmaceutical Analysis, Clinical Pharmacy, Nano Formulations, Natural Products, Drug Design, Community and Hospital Pharmacy.

Learning Outcomes:

- 1) Building a rewarding career in pharmacy.
- 2) Role of Clinical Pharmacist.
- 3) Impurity Profiling using hyphenated techniques.
- 4) Ocular Pharmacotherapy
- 5) Role of Natural Products
- 6) Biotransformation studies in Drug Design.
- 7) Essential oil nano carriers in cancer treatment
- 8) effective methods to improve mental health in crisis times.

St. Pauls College of pharmacy organized a Faculty Development Program **ESOTERIC ESSENCE** on novel concepts from various branches of pharmacy. The program was embraced by renowned international resource persons. The sessions are very informative and thought provoking. At the end of the program feedback links were sent to the delegates for their opinions. The feedback was very positive and encouraging and acts as a driving force to conducts events of same kind in the coming future.

Duration of Course: 5 th to 9 th June 2021	Duration in Hrs: 06 Hrs

Resource person details:

Mr.Sai Ravinder

CEO,Wissen Skills and Consulting

Number of faculty members attended: 24

St. Pauls College of pharmacy organized a certificate programme on “**Anger and Stress Management**” for faculty members by Mr.Sai Ravinder,CEO,Wissen Skills and Consulting.

This program covered the following objectives and learning outcomes.

Objectives:The objective of the present workshop is to provide and update knowledge for faculty members on Stress and Anger Management.

Learning Outcomes:

- 1) The numerous causes of stress and anger
- 2) The various complications arising out of stress and anger.
- 3) The techniques currently used to mitigate the stress and anger
- 4) The novel approaches to swiftly manage stress and anger.

Overall, 24 faculty members participated enthusiastically in the workshop. The program was very much valuable to them and their feedback was quite encouraging about the program. The management and Principal of St. Pauls College of Pharmacy thanked the resource person Mr.Sai Ravinder for making the program a grand success.

DETAILED COURSE PLAN

Name of the course: **FDP on Drug development to finished dosage forms an industry perspective.**

Duration: **From 06.08.2019 to 10.08.2019**

Academic Year: **2019-20**

Modules to be covered in the course

Day	Topic	Approach	Duration
1	Preformulation studies	<ul style="list-style-type: none"> • Role of pre-formulation in drug discovery: Material properties in lead selection, high throughput pre-formulation studies, 'drug ability' of new chemical entities, tools to assist in lead selection. • Preformulation as a support for formulation development, identification of challenges during formulation development, dosage form specific studies. 	08 Hrs
2	Influence of Drug Properties and Routes of Drug Administration	<ul style="list-style-type: none"> • Design of sustained and controlled release systems: Rationale for controlled drug delivery, physiochemical properties and biological factors influencing the design and performance of sustained / controlled release products. 	08 Hrs
3	Formulation and evaluation of developed dosage forms.	<ul style="list-style-type: none"> • Biopharmaceutics and pharmacokinetic aspects: Strategies and design, factor effecting controlled release drug delivery systems, Computation of desired release rate and dose, Pharmacokinetic design for DDS; invitro/in-vivo considerations, Intermittent zero order and first order release. 	08 Hrs
4	Equipments used in industries	<ul style="list-style-type: none"> • Role of equipments in performing unit operations 	08 Hrs

5	Various industrial operations	<ul style="list-style-type: none">Analysis on the technological innovation in pharmaceutical industries in development of dosage forms.	08 Hrs
Total Duration (in Hrs)			40 Hrs

REPORT

Date: 13.08.2019

Name of the course: FDP on Drug development to finished dosage forms an industry perspective	Academic Year: 2019-20
Duration of Course: From 06.08.2019 to 10.08.2019	Duration in Hrs: 40 Hrs

Resource person details:

Dr. Narender Reddy

Senior Research Scientist, Formulation R&D, Perrigo Company, PLC

Number of faculty attended: 16

St. Pauls College of pharmacy organized a certificate programme on “**FDP on Drug development to finished dosage forms an industry perspective**” for faculty by Dr. Narender Reddy

This program covered the following objectives and learning outcomes.

Objectives:

The objective of the present fdp is to provide knowledge for faculty on drug development and dosage forms.

This workshop intends to educate and to teach industrial methods for drug development.

Learning Outcomes:

- Summarize principles and technology used in the design and development of dosage forms in industries.
- Describe the equipments for the development of dosage forms by different unit operations.

- Describe various approaches for development of dosage forms.

Totally 16 faculty enthusiastically participated in this training program. The program was very much valuable to them and their feedback was encouraging about the program. The management and Principal of St. Pauls College of pharmacy thanked the resource person Dr. Narendar reddy for making the program successful.

--	--

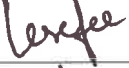

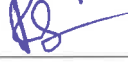

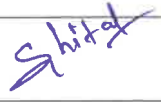

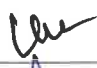

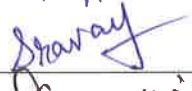

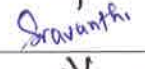

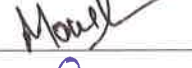

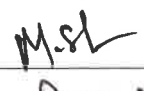

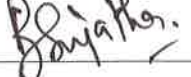

A Faculty Development Program on Information Communication Technology Tools was organized by St Pauls college of Pharmacy from 3-2-2020 to 7-2-2020.

SUMMARY

Advanced Use different software applications to enhance one's own learning – database applications, analysis of data and problem solving, computing, design, graphical and audio-visual communication; undertake research and carry out projects using web resources; use ICT for documentation and presentation; create and participate in web based networks for cooperative and collaborative learning; become aware of issues of cyber security, copyright and safe use of ICT and take necessary steps to protect oneself and ICT resources The content of the curriculum involves activities which simultaneously draw upon competencies from different levels, such that a completion of all levels is ensured. The ICT in Education curriculum broadly attempts to equip teachers with ICT competencies to strengthen their own professional capacities and to effectively use ICT tools and devices in their teaching- learning. Teacher will also be trained to manage the ICT environment in the school and function as a local coordinator for organising capacity building programmes. The curriculum therefore is rolled out as a series of short courses, spanning the six strands and ensuring together the basic, intermediate and advanced levels of competence. Three induction and twenty refresher courses leading to a diploma in ICT in Education is proposed. Induction courses are to be conducted in face-to-face mode whereas State (SCERTs/ SIEs) may choose to conduct the refreshers in face to face or in online mode

6.	Learning content type <ul style="list-style-type: none">• Verbal knowledge• Memorization Skill, Ability• Social Responsibility
7.	Teaching and learning strategies and act <ul style="list-style-type: none">• to teach, to explain• to observe, to help, to demonstrate• to cooperate, to support
8.	Learning theory <ul style="list-style-type: none">• Behaviourism• Cognitivism Constructivism• Socio-constructivism• Situated learning
9.	Cognitive Domain <ul style="list-style-type: none">• Lecture, programmed instruction, drill and practice• Discussion, independent/group projects, simulations, field experience, role-playing, laboratory• Evaluation of Independent/group projects, field experience, laboratory
10.	Psychomotor Domain <ul style="list-style-type: none">• Perception• Peer teaching, games, role-playing, field experience, drill and practice• Games, role-playing, field experience, drill and practice

A Faculty Development Program on workshop on Pedagogy techniques was organized by St Pauls college of Pharmacy from 16-3-2020 to 20-3-2020.

SUMMARY

"Generally, in life, knowledge is acquired to be used. But school learning more often fits Freire's apt metaphor: knowledge is treated like money, to be put away in a bank for the future." Seymour Paper, *The Children's Machine: Rethinking School in The Age Of The Computer*. The principles and practices of teaching are both an art and a science. Education influences our youngest generations, it inspires children to think differently and it develops critical thinking in young, influenceable minds. In school, children acquire language, science and mathematical skills that they can use later on in life. Education has a recurring impact, long after children become adults. The principles of teaching are constantly evolving; collaborative learning, flipped learning and deep learning are all a mainstay of the modern classroom. If teaching is the act of encouraging learning activities through discovery and acquired knowledge, pedagogy is the method of teaching, both as an academic subject or theoretical concept. Within pedagogy, there are four core learning profiles: Auditory learners benefit from listening to the information presented to them in class. They learn orally from both listening to instruction from the teacher and audio recordings. Visual learners prefer to see information in order to visualise the relationship between ideas and concepts to understand them. Reading and writing learners prefer to take on information by reading texts. These learners can further absorb information by condensing and rephrasing it.

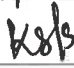

The workshop has given lot of novel techniques to be followed by the teacher in reaching the student effectively and efficiently.

WORKSHOP ON WEBPROS AY 2019 - 20

The screenshot shows the homepage of St. Pauls College of Pharmacy. The header features the college's name in red and blue, with the text "(Approved by AICTE, PCI and Affiliated to Osmania University)". Below the header is a banner image of students in a library. The main content area has a "WELCOME" message and three login panels: "Employee Login" (purple), "Student Login" (red), and "Parent Login" (blue). Each panel includes a "User Name" and "Password" field and a "LOGIN" button. The browser's address bar shows the URL "webprosindia.com/stpaulpharma/Default.aspx".

The screenshot shows a GoToMeeting web conference interface. The browser's address bar displays the meeting URL "https://app.goto.com/meeting/343697389". The meeting title is "Manjiri G". The interface shows four participants in a grid view: "NAGA HARITHA & Dr SUNIL" (top-left), "Sainath Chary Gannoji" (top-right), a man (bottom-left), and a woman (bottom-right). The bottom control bar includes icons for "Record...", "Mic", "Camera", "Share", and "Leave". The Windows taskbar at the bottom shows the search bar and system tray icons.

REPORT

Date: 17.09.2018

Name of the course: Workshop on CO-PO MAPPING	Academic Year: 2018-19
Duration of Course: From 10.09.2018 to 14.09.2018	Duration in Hrs: 40 Hrs

Resource person details:

Dr. M. Kiranmai

Professor, Bharath Institute of Technology, Hyderabad

Number of faculty attended: 51

St. Pauls College of pharmacy organized a certificate programme on “**Workshop on CO-PO MAPPING**” for faculty by Dr. M. Kiranmai.

This program covered the following objectives and learning outcomes.

Objectives:

The objective of the present workshop is to provide knowledge for faculty on co-po mapping.

This workshop intends to educate and allows faculty to create a visual map of a program.

It helps to encourage and apply Outcome Based Education in the schools and colleges for attaining a futuristic approach towards education along with improved learning outcomes.

Learning Outcomes:

- This activity is useful for communicating where within the curriculum introduced, practiced, and mastered.
- Describe the methods for calculation of co-po mapping.

- Explore how students are meeting program-level outcomes at the course level. Outcomes mapping focuses on student learning.
- Demonstrate sufficient time to attain proficiency and fluency in the subject matter.

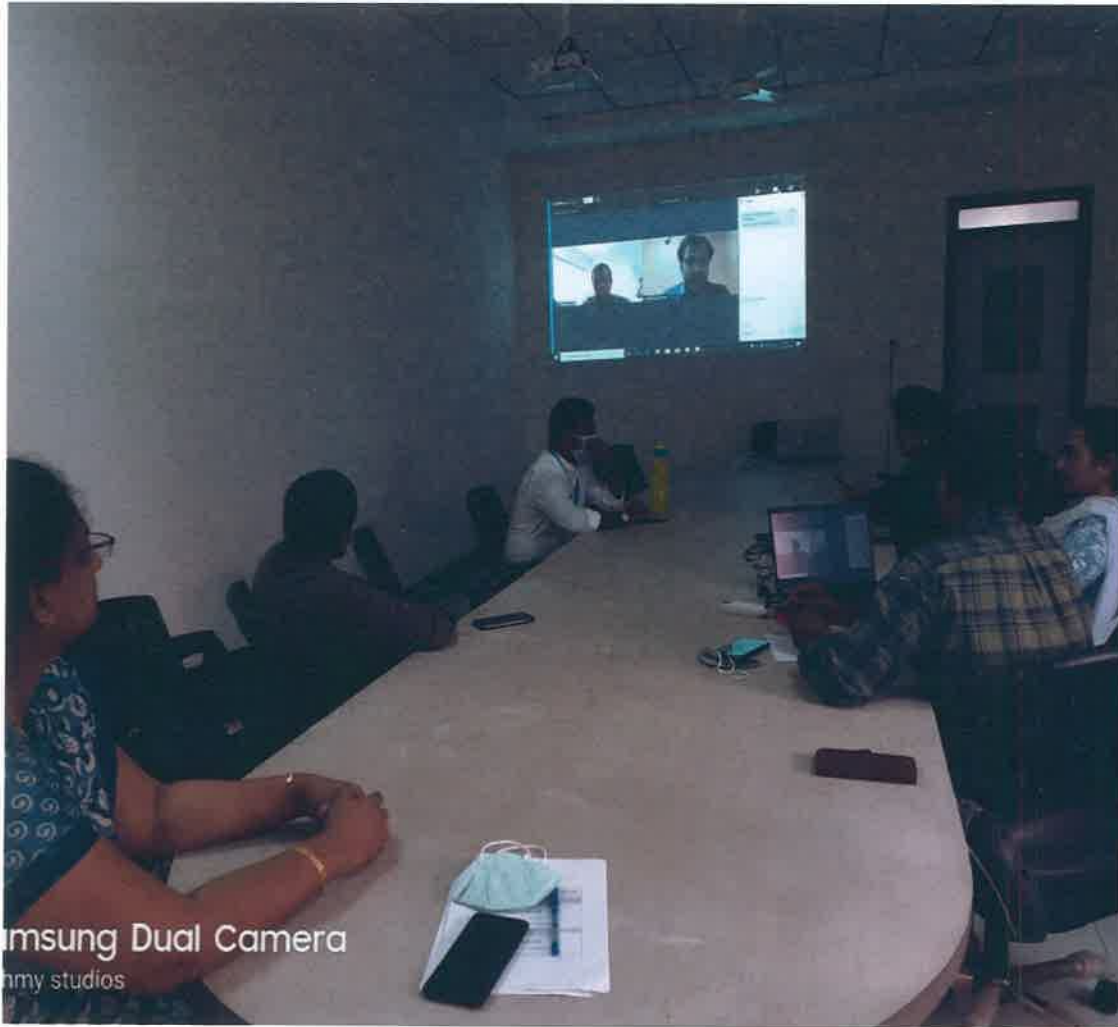

Totally 51 faculty enthusiastically participated in this training program. The program was very much valuable to them and their feedback was encouraging about the program. The management and Principal of St. Pauls College of pharmacy thanked the resource person Dr. M. Kiranmai for making the program successful.

St. Pauls College of pharmacy organized a certificate **Faculty Development Programme** on “**Advances in Type-1 DM in Pharmacological Research**” on 3rd to 7th July 2017 at 9:30 am for the entire faculty by Dr. Shivani Desai, Professor Department of Pharmacology.

This program covered the following objectives and learning outcomes.

Objectives:

The objective of the present FDP is to provide fundamental knowledge for the faculty on various Pharmacological aspects.

This FDP cum training Programme intends to alert the faculty members and to provide better advancement of Pharmacological research in futuristic type-1 DM concept.

Learning Outcomes:

- 1) Understands the mechanism of drug action and its relevance in the treatment.
- 2) Articulate the receptor actions on various tissues.
- 3) Appreciate correlation of Pharmacology with related Medical sciences.

Totally 47 faculty members were participated in this training. The entire faculty enthusiastically participated in the program. The program was very much valuable to them and their feedback was encouraging about the program. The management and Principal of St. Pauls College of pharmacy thanked the resource person Dr. Shivani Desai for making the program successful.

Resource person details:

Dr. Rambhau

Director, Technical

Pulse Pharmaceuticals, Hyderabad

Number of faculty attended: 16

St. Pauls College of pharmacy organized a certificate programme on “**FDP on Dermokin Nanotechnology**” for faculty by **Dr. Rambhau** from **Pulse Pharmaceuticals, Hyderabad**

This program covered the following objectives and learning outcomes.

Objectives:

The objective of the present FDP is to provide knowledge for faculty on dermokin nanotechnology.

This FDP intends to educate and to know properties, permeates and drug liberating substances in skin.

Learning Outcomes:

- Summarize quality production of dermokin.
- Describe the use of liberating substances in topical formulations of nanotechnology.
- Define appropriate properties and permeates, long lasting effects.

Totally 16 faculty enthusiastically participated in this FDP. The program was very much valuable to them and their feedback was encouraging about the program. The management and Principal of St. Pauls College of pharmacy thanked the resource person Mr. Nagesh for making the program successful.

Name of the course: FDP on Liposomes from basics to drug delivery	Academic Year: 2017-18
Duration of Course: From 20.04.2018 to 21.04.2018	Duration in Hrs: 24 Hrs

Resource person details:

Dr. SS Apte

Vice President, NDDS, Natco Pharma, Hyderabad

Number of Faculty attended: 16

St. Pauls College of pharmacy organized a certificate programme on “**FDP on Liposomes from basics to drug delivery**” for faculty by **Dr. SS Apte** from **Natco Pharma, Hyderabad**.

This program covered the following objectives and learning outcomes.

Objectives:

The objective of the present FDP is to provide knowledge for faculty on liposomes.

This FDP intends to educate and to know properties, and drug targeting substances in liposomes.

Learning Outcomes:

- Summarize quality production of liposomes.
- Describe the use of substances in formulations and evaluation of liposomes.
- Define appropriate properties applications and drug targeting of liposomes.

Totally 16 faculty enthusiastically participated in this FDP. The program was very much valuable to them and their feedback was encouraging about the program. The management and Principal of St. Pauls College of pharmacy thanked the resource person Dr. SS. Apto for making the program successful.

Mr. Nagesh

Motivational Speaker & Life Skills Coach

Number of faculty attended: 49

St. Pauls College of pharmacy organized a certificate programme on “**Workshop on work etiquettes**” for faculty by Mr. Nagesh.

This program covered the following objectives and learning outcomes.

Objectives:

The objective of the present workshop is to provide knowledge for faculty on work etiquettes.

This workshop intends to educate and to teach you everything you need to know to move graciously through today's world.

Learning Outcomes:

- Summarize why etiquette matters, polite conversation and describe the common courtesies of life.

- Describe telephone etiquette, define proper correspondence and describe basic table manners.
- Describe etiquette overnight guests, etiquette for moments of sorrow, and the rules of the workplace.
- Define appropriate behavior for children, summarize gift giving guidelines.
- Demonstrate mastery of lesson content at levels of 70% or higher.

Totally 49 faculty enthusiastically participated in this training program. The program was very much valuable to them and their feedback was encouraging about the program. The management and Principal of St. Pauls College of pharmacy thanked the resource person Mr. Nagesh for making the program successful.

Number of faculty members attended: 46

St. Pauls College of pharmacy organized a Faculty Development Program on **ADVANCED METHODS OF ORGANIC SYNTHESIS** by Dr. P. Sunil Kumar Chaitanya, Professor Department of Pharmaceutical Analysis and D.R.Ramalingam Professor Department of Pharmaceutical Chemistry from

This program covered the following objectives and learning outcomes.

Objectives:

This FDP is intended to educate the faculty about novel synthetic strategies with emphasis on green chemistry procedures. The following topics were covered. Microwave assisted Organic Synthesis; Ultrasound assisted Green Synthesis, Ball milling method for synthesis of Nano materials, Combinatorial Chemistry

Learning Outcomes:

- 1) The fundamental principles of Advanced Organic Synthetic Procedures.
- 2) Applications of these strategies with respect to specific chemical reactions.
- 3) Instrumentation.
- 4) Applications and advantages over the conventional modes.

Total 49 faculty members have participated in this Faculty Development Program. The faculty expressed that the program was very useful and informative and the feedback was quite encouraging. The management and Principal of St. Pauls College of pharmacy thanked the resource person Dr. P. Sunil Kumar Chaitanya and D.R.Ramalingam for making the program successful.

(Non-Teaching Staff)

Date: 03/02/2021

CIRCULAR

All the non-teaching staff members are informed to attend the webinar on
“Effective communication and Soft skills for better career” on 04/02/2021.

Principal
Principal
St. Pauls College of Pharmacy
Turkayamjal, R.R. Dist-501 510.

REPORT

Name of the Program: Effective communication and Soft skills for better career

Date: 3/2/21

Webinar on “Effective communication and Soft skills for better career” was organized by St Paul’s college of Pharmacy

The following modules were carried out on respective day.

MODULE :

- Being able to communicate effectively is one of the most important life skills to learn.
- Knowledge of Communication as transferring information to produce greater understanding.
- Learning was done vocally (through verbal exchanges), through written media (books, websites, and magazines), visually (using graphs, charts, and maps) or non-verbally (body language, gestures, pitch of voice, and tone).
- All of these means of communication are essential Soft Skills that are vital for a successful Career.

Topic: “Effective communication and Soft skills for better career”

SUMMARY

- Any time you interact with a co-worker, you have the opportunity to use soft skills to make your work easier, better or more efficient.
- Managing time, adapting to new situations, and working well under pressure are all soft skills that transfer to any workplace environment at any level of experience.
- These are critical for creating and growing your personal network and making professional contacts in the workplace.
- People with strong communication skills have a curious attitude that allows them to pursue professional leads and develop educational knowledge at a fast pace.

REPORT

Name of the Program: A work shop on laboratory safety

Date: 12/02/2020

A work shop on laboratory safety was organized by St Paul's college of Pharmacy

The seminar was conducted by and the event coordinator presented the speaker with a memento.

The seminar will began with examples of small things including laboratory safety tips and rules and regulations

The following module was carried out on respective days.

MODULE :

- Recognize Hazards
- Assess Risks
- Minimize Risks
- Prepare for Emergencies

Overall the program was very useful and a great success

A work shop on laboratory safety” was organized by St Pauls college of Pharmacy

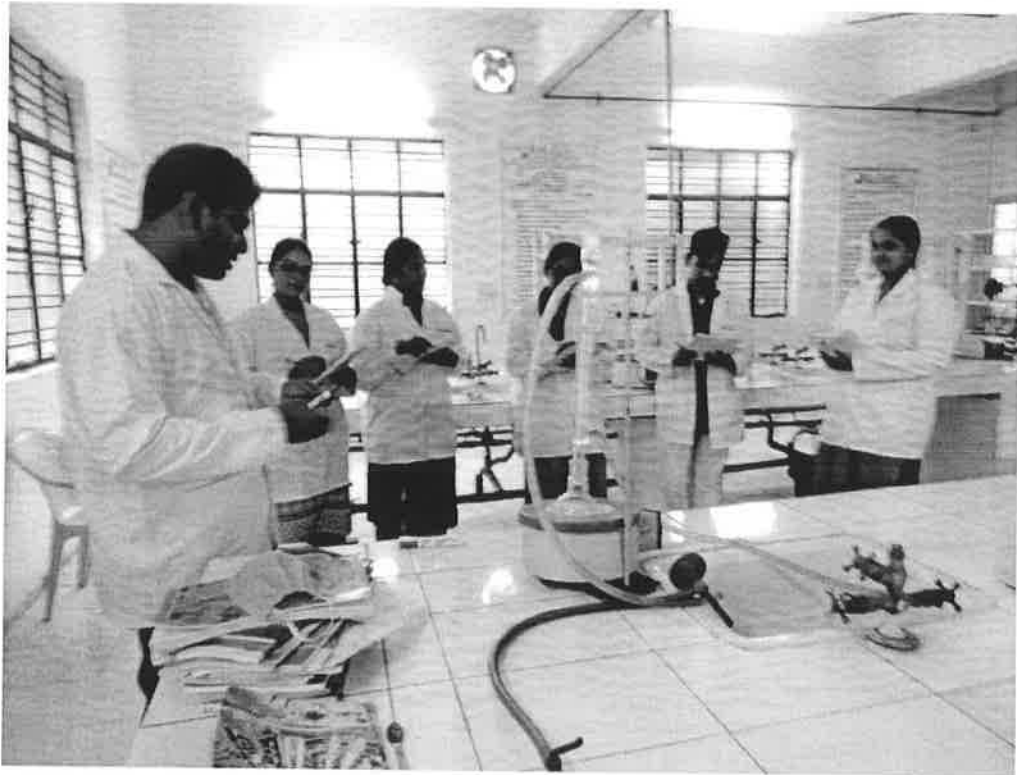

SUMMARY

➤ Lab workers use hazardous substances differently than other workers. Where industrial applications typically use large quantities of a few hazardous substances, labs use a wide variety of substances, but in smaller quantities and change substances as well as procedures more often. This program is intended to provide information to assist you in the reduction of risk involved in your work in the laboratory. Knowledge of the hazards associated with each chemical and the proper steps to protect yourself is critical to your safety as well as that of your co-workers. You must always minimize chemical exposures and potential emergencies, as well as comply with all state and federal regulations. Also, this course will review chemical hazards, chemical hygiene, personal protective equipment and ventilation in the lab.

A handwritten signature in black ink, appearing to read "Prakashan", is written over a horizontal line.

REPORT

Name of the Program: Training session on “NAAC/NBA

Accreditation improve the quality of education”

Date: 13-03-2020 to 17-03-2020

Training session on how **NAAC/NBA accreditation improve the quality of education** was organized by St Paul’s college of Pharmacy

The following modules were carried out on respective day.

MODULE:

- **WHAT IS NAAC/NBA ACCREDITATION:**

 - NAAC Accreditation

 - NBA Accreditation

- **SIGNIFICANCE OF NAAC/NBA IN IMPROVING QUALITY OF EDUCATION**

 - Differences between NAAC and NBA

 - How NAAC helps in improving education

 - How NBA helps in improving education

- **OBJECTIVES OF NAAC/NBA**

 - Main objectives for NAAC

 - Main objectives of NBA

- **ASSESSMENT PROCEDURE**

 - Assessment procedures for NAAC

 - Assessment procedures for NBA

 - How can an institution get full on marking

- **EVALUATION POINT OF VIEW**

 - Main criteria evaluators look into Convincing points.

**Topic: “seminar on awareness NAAC/NBA Accreditation in
improving the quality of education”**

SUMMARY

- The individuals knew the importance of the NAAC/NBA
- difference between NAAC/NBA
- objectives and assessment procedures
- Evaluators point of view.
- Points that will convince the evaluators.

REPORT

Name of the Program: seminar on “scientific visit seminar on using self techniques for dealing with stress”

Date: 2-11-2020 and 3-11-2020

Seminar on how “**To use self techniques for dealing with stress**” was organized by St Paul’s college of Pharmacy

The training was conducted by and the event coordinator presented the speaker with a memento.

following modules were carried out on respective day.

DAY 1

MODULE :1

- **REASONS OF STRESS**

Heavy work load

Long working hours

Job insecurity

Boring work

- **TYPES OF STRESS**

Acute stress

Chronic stress

Emotional stress

- **STRESS MANAGEMENT STRATEGIES**

Progressive muscle relaxation

Behavioural stress reduction

Mindful based stress reduction

DAY 2

MODULE-2

- **RELAXATION TECHNIQUES**

Autogenic relaxation

Progressive muscle relaxation

visualization

- **IMPROVING QUALITY OF WORK BY REDUCING STRESS**

Increase physiological safety

Set boundary around time working environment

Be transparent

Topic: “Seminar visit on using self techniques for dealing with stress”

SUMMARY

- Reasons for causing stress
- Types of stress and what are the causes of the specific type of stress.
- Relaxation techniques that help the individuals in managing their stress.
- Quality of work improvement by managing stress
- Importance of coordination in managing stress.

REPORT

Name of the Program: **A seminar on MS-Excel and its practise session**

Date: 04/01/2018 to 05/01/2018

A seminar on MS-Excel and its practise session was organized by St Paul's college of Pharmacy

The seminar was conducted by and the event coordinator presented the speaker with a memento.

The seminar will begin with examples of small things including formulas, calculations and analysing the data.

The following modules were carried out on respective days.

DAY 1

MODULE :1

- How to format large blocks of cells quickly and efficiently with the power of Format Painter
- Make your titles and headings stand out by using the Merge and Center formatting feature
- How to fill out an entire column of data using the new Flash Fill tool

DAY 2

MODULE :2

- Why and how to create relationships between tables
- How to quickly create custom AutoFilters to view your data the way you want to and how to take advantage of the search filter
- Simple techniques to connect to a variety of data sources, such as SQL Server®, Windows Azure™ Marketplace and others and import data into Excel

Overall the program was very useful and a great success.

Principal
St. Pauls College of Pharmacy
Turkayamjal, R.R. Dist-501 510.

A seminar on was organized by St Pauls college of Pharmacy.

SUMMARY

- A simple tool for learning VBA syntax, including how to reference specific cells, a range of cells, worksheets and more
- How to use loops to repeat commands multiple times
- View and modify modules, forms and other worksheet code using the Project Explorer and Visual Basic Editor
- How to write conditional If/Then statements in your code that can be used to execute other functions, control program flow, allow user input and perform many other functions
- How to create and use your own custom functions
- How to get continuously updated data from a Web site into a worksheet
- Creating a macro that will update a chart published to a Web page at regular intervals
- How to embed worksheet data in a Web page
- Save time with the Excel Web Data add-in feature by using Web page data as a data source in your spreadsheet
- How to utilize the new features of Excel to share files and work with other people

REPORT

Name of the Program: **A seminar on MS-Office and its practise session**

Date: 13/03/2018 to 14/03/2018

A seminar on MS-office and its practise session was organized by St Paul's college of Pharmacy

The seminar was conducted by and the event coordinator presented the speaker with a memento.

The seminar will began with examples of small things including formulas, calculations and analysing the data access, word, excel, PowerPoint, notepad and etc...,

The following modules were carried out on respective days.

DAY 1

MODULE :1

- Create tables
- Display or distribute data
- Archive snap photos of the data

DAY 2

MODULE :2

- . The design of a report is divided into sections that you can view in the Design view.
- Understanding how each section works can help you create better reports. For example, the section in which you choose.
- calculated control determines how Access calculates the results.

Overall the program was very useful and a great success.

Principal
St. Pauls College of Pharmacy
Turkayamjal, R.R. Dist-501 510.

A seminar on MS-office and its practise session was organized by St Pauls college of Pharmacy.

SUMMARY

Reports offer a way to view, format, and summarize the information in your Microsoft Access database. For example, you can create a simple report of phone numbers for all your contacts, or a summary report on the total sales across different regions and time periods.

From this article, you'll get an overview of reports in Access. You'll also learn the basics of creating a report, and using options like sorting, grouping, and summarizing the data, and how to preview and print the report.

While it is possible to create "unbound" reports that do not display data, but for the purposes of this article, we'll assume that a report is bound to a data source such as a table or query
