## **Connectivity to Manchal**

Public Bus Service is Available within village

Private Bus Service is Available within 5 - 10 km distance

Railway Station is Available within 10+ km distance

## **Problem identification**

As the illiterate population is noticed in high percentages, the unemployment rate is believed to be high too. The problem of unemployment is high. Thus an alternative and future building livelihood is essential in the form of agriculture which was found to be a suitable solution as the strength of the villagers lies in the indigenous knowledge of cultivation.

## **Scope of Village development plan**

The SEG proposal was developed based on the survey results of UBA village survey programme which could emphasize the need of socioeconomic upliftment and strength of the villages with its traditional roots of knowledge as agriculture.

The SEG proposal emphasized on “Cultivation of Black rice and millets” as rural upliftment programme approved by UBA under sustainable agriculture system.

## **Objectives**

1. To conduct village survey and house hold survey
2. To analyze the needs of the local population of the villages

3. Design and development of research inquisitives applicable to the area in order to uplift the village with strong socio economic background
4. To work in orientation with the SEG proposal and also to uplift agriculture rural development
5. To analyze the project time to time for its timely completion

### **Methodology**

To meet the above mentioned objectives the methodology was designe which involved key stake holders to be in pace with UBA activities like

1. Conduction of social mobilization programs to understand the socioeconomic status and livelihood of the villagers for which programs like
  - Govt awareness program
  - Agriculture awareness campaign were conducted
2. To participate in the intermittenly meet with the village secretaries and gram panchayat officers and discuss on the release of fund and modify the scenario of agriculture
3. To enrich and train them on new ways of cultivation
4. Conduct awareness camp on seed development and soil enrichment
5. Develop progress report on the midterm analysis
